Listen close cause your the one that I believe
Is gonna take my heart away
And make me leave and want to share with you my
lonely days
Hold me close cause your the one I'm looking for
To find the love you keep inside
And bring to life the love, a broken heart has made you
mine
I'll always be the one, yes i'll be there
I'll be there for you
Just take my hand and trust me, stay with me tonight

Chorus:

Do unto me, just like I do for you
Do unto me, and if your love is true
I'll give you my world, just do unto me

Next to you is where i'll always want to be
Doing everything to please you, keep you close to the
one who will never make you cry
Make me feel like i'm the only one for you
And I will show you everyday that in my arms is where
you'll always find your happiness
I'll always be the one, yes i'll be there
I'll be there for you
Just take my hand and trust me, stay with me tonight

Chorus (4x)
