

## Co-Ro "Over And Over"

Visit "[Over And Over](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I welcome you to my surprise  
Words speaking and over  
In this world I'm far away from you

Over and over  
Over and over  
Over and over...

Yeah yeah yeah...

Dancing to the stars at night  
On a beach, waves rolling over  
In this world I'm far away from you

Journey through the years gone by  
Like a light that shines from nowhere  
From a space so far away from you

Flowers falling from the sky  
Memories turn over and over  
I am running baby far away from you  
Welcome to my surprise  
Words speaking and over  
In this world I'm far away from you

Hearts beat the drums of love  
Fire burning baby over and over  
In a land that's far away from you

In a flash there is no time  
Clock ticks it's getting closer  
In this world I'm far away from you

I hear that now you're doing fine  
And we're both getting older  
In this world I'm far away from you
