My temptation is coming from my heart  
That skips a bit just like a game  
Everytime you call my name, call my name

It's only you  
I want you too  
It's only you  
I want you too  
Come

Do you see what I mean talking 'bout fever  
The fire burns inside of me  
And you can quench me easily, so....  
Let me hold you and squeeze you like a fool  
Because I'm crazy about you  
When you sit down and cross your legs, cross your legs

Temptation  
Temptation...  
Come

You're sweeping away without a reason  
Unless someone else is loving you  
I'd want to have you by my side, by my side

Temptation  
Temptation...

It's only you...  
I want you too!  
It's only you .  
I want you too!

My temptation is coming from my heart  
That skips a bit just like a game  
Everytime you call my name, call my name

Temptation  
Temptation...
