As down by Brooker's corner, one morning I did stray.  
I met a fellow rebel there, and to me he did say.  
We have orders from the Captain to assemble at  
Dunbar  
But how are we to get there without a motor car.  
Yes and how are we to get there without a motor car.

Oh Barney dear be of good cheer and I'll tell you what  
we'll do.  
The Specials they are plentiful and the I.R.A. are few,  
We'll wire up to Stranlar, and before we get that far,  
We'll give the boys a bloody good ride in Johnson's  
Motor Car.  
Yes we'll give the boys a bloody good ride in Johnson's  
Motor Car.

When Doctor Johnson got the wire he soon put on his  
shoes  
He said this must be an urgent case, and there is not  
time to lose,  
He then put on his castor hat and on his breast a star,  
You could hear the din going through Glen Fin of  
Johnson's Motor Car.  
You could hear the din going through Glen Fin of  
Johnson's Motor Car.

But when he got to the Railway Bridge, the rebels he  
saw there,  
And Johnson knew that the game was up for at him they  
did stare,  
He says I have a permit to travel near and far,  
You can stick your English permit, we want you motor  
car.  
You can stick your English permit, we want you motor  
car.

What will my loyal brethren say when they hear the  
news  
My car it has been commandeered by the rebels at  
Dunluce,  
We'll give you a receipt for it, all signed by Captain Barr  
And when Ireland gets her freedom, you'll get your

motorcar

Yes when Ireland gets her freedom, you'll get your  
motorcar

Well we sat the car in motion and filled it to the brim  
With guns and bayonets shining, which made old  
Johnston grim.

And Barney hoisted the Sinn Fein flag and it fluttered  
like a star,

And we gave three cheers for the I.R.A. and Johnson's  
motor car.

Yes we gave three cheers for the I.R.A. and Johnson's  
motor car.

Now when the special heard the news, they soon put on  
their shoes.

They've stolen Johnson's motorcar, but the rebels at  
Dunluce

They search around the valleys, they search both near  
and far

But the I.R.A. where far away in Johnson's motor car.

Yes the I.R.A. where far away in Johnson's motor car.

Yes the I.R.A. where far away in Johnson's motor car.
