"Small Supernova"

Visit "[Small Supernova](#)" on [MotoLyrics.com](#)

There's a small supernova coming in, it's coming in
And everyone around me starts to swim
And when they fall count them all
There's a small supernova coming in
But after all they ain't that small, they're in the
afternoon
But after all they ain't that small, they're in the
afternoon
But after all they ain't that

There's a small supernova coming in, it's coming in
And everyone around me starts to swim
And when they fall count them all
There's a small supernova coming in
But after all they ain't that small, they're in the
afternoon
But after all they ain't that small, they're in the
afternoon
But after all they ain't that

Hello, we are, hello, we are
Hello, we are, hello, we are
Hello, we are, hello, we are

I've been inside this lonely place too
Can admit even now that you were wrong
.. alibi to make it so
To kill me

Hello, we are, hello, we are
Hello, we are, hello, we are
Hello, hello, hello, hello
