I breath in
Close my eyes
Turn of my phone
Clear my mind

I wanna feel my heart ache,
Need a mistake to feel alive
Cause I've been head over heels,
Trying to please everyone but me

Just for tonight,
I follow my heart and take the fight
Just for tonight,
I'll do what's wrong if it feels right
The sky's the only limit,
Now that I am in it,
Nothing's gonna hold me back
Just for tonight,
Just for tonight I give myself green light

I've been good
Done my time
So cut me loose
I know that I'll be fine

I wanna feel my heart ache,
Need a mistake to feel alive
Cause I've been head over heels,
Trying to please everyone but me

Just for tonight,
I follow my heart and take the fight
Just for tonight,
I'll do what's wrong if it feels right
The sky's the only limit,
Now that I am in it,

Nothing's gonna hold me back
Just for tonight,
Just for tonight I give myself green light
Green Light

Let my body decide,
I'm taking the ride, tonight, tonight, tonight
This is just a drive by,
Let's not waste any time, tonight, tonight, tonight
Just for tonight
Just for tonight I give myself green light

The sky's the only limit,
Now that I am in it,
Nothing's gonna hold me back
Just for tonight,
Just for tonight I give myself green light
Just for tonight I give myself green light
