Too many people here
In my house now
Let's make em disappear
And turn the lights out
Too many witnesses
Can't let our love show
Let's find another place
Where they can all go

This party's starting when we're all alone
You're my crowd so they can all go home
This party's starting when it's you and I
Lock the doors let's leave them all outside

We gotta make it stop so we can be alone
Somebody call the cops, can I use your phone?

Let's fake a fire now
And smoke em all out
I'm burning up inside
I need you right now

This party's starting when we're all alone
You're my crowd so they can all go home
This party's starting when it's you and I
Lock the doors let's leave them all outside

Come a little closer
I want you near me
Let's get this party started
Just you and me baby

Come a little closer
I want you near me
Let's get this party started
Just you and me baby
