Yesterday we were together
We seemed perfect for each other
Now we've lost our connection
Going in opposite directions

[Chorus]
You just walked away from me
I never said it was going to be easy
Sorry is all you had to say
It's alright because I'll be ok

I've been fine since you went away
Just getting by day to day
Trying my hardest not to miss you
Remembering the first time that I kissed you

(Chorus)

You said
That you
Loved me

[Repeat 3 more times]

(Chorus) [x2]
