[By Jacob-Hans]

Walking in the woods  
There I feel the darkness Like how I feel  
In the rain of steel  
I felt so empty as I've never felt  
Where was the end that I have never seen?  
As if I just awaked in the middle of a dream  
The story without an end  
Captured my soul into another land  
This is how I live my life  
And I know my ways  
Don't touch my soul  
You have caused enough pain  
Hear the leafs falling from the trees  
Now the boughs are empty as my hart  
Hear the whispering noises  
As if they have something to say  
Just let the soul going his way  
Just let the soul going his way  
Violation by mind imagination  
Yet the feelings become hate  
And I'll make an end of the silent that prevails  
Through my ambition of violence  
Who were in the laid of dark emotions  
Where was the end that I have never seen?  
As if I just awaked in the middle of a dream  
The story without an end  
Captured my soul into another land  
Emotions like moments of malice and pain  
It's torturing my mind that's going insane  
Till I can accept the fact that happened  
So I can finish my story, which will be over when I am  
death
