When did I part  
With the little girl so full of curiosity  
I worked so hard  
To build a castle that protects me from harsh realities

How could I know these are the walls  
That lock out the adventurer in me  
No matter how I live  
I wanna keep the freedom in my heart and soul

Chorus:  
Leaf in the wind  
Take me where the wind of change blows  
Leaf in the wind  
Take me where the life rides with the flow

I get so scared  
Of Father Time that peels away the layers of my life  
My sight gets impaired  
By the mask I wear to hide what's really inside

I get too far under to see  
What my life's really meant to be  
I have to find a way  
To let myself live day by day and trust my destiny

Chorus
