She turned me round
She said to me
It all depends on the chemistry
And once in a long while if something comes your way
You can wash it down the drain or make it your own
Well don't waste it
Don't throw it away
If the chemistry is right
If the chemistry is there
If the chemistry is right
If the chemistry is there
You sit and wait
You stay at home
You hesitate you can not a lone?
But once in a long while if something comes your way
You can wash it down the drain or make it your own
Well don't waste it
Don't throw it away
If the chemistry is right
If the chemistry is there
If the chemistry is right
If the chemistry is there

Once in a long while if something comes your way
You can wash it down the drain or make it your own
Well don't waste it
Don't throw it away
If the chemistry is right
If the chemistry is there
If the chemistry is right
If the chemistry is there

If the chemistry is right
If the chemistry is there
If the chemistry is right
If the chemistry is there
