"America In Heaven"

Visit ["America In Heaven"](#) on MotoLyrics.com

I heard a small man say that God
Is on our side.

I don't think in heaven
That they're waving the stars and stripes.

It seems a simple mind, feeds the foolish man.

I don't see any wars in my creators plan.

I heard a small man say that God is on our side.

I don't think in heaven that they're waving the stars and
stripes.

It seems a simple mind, feeds the foolish man.

I don't see any wars in my creators plan.

Leave our God out please, when killing human
beings, who are born to families in lands other than
these.

Cuz,

There's no America in heaven. There's no America in
heaven. There's no America in heaven. If God's got
bombs we better not upset him.

I've heard the freedom cries from high upon the throne

They send our kids to die, but never send their own

If God almighty takes your side in killing man

Then God's your murder king who leads you by the
hand.

Your divine beliefs that fuel the war machine

That feeds us agony but one day you will see that..

There's no America in heaven. There's no America in
heaven. There's no America in heaven. If God's got
bombs we better not upset him.

A need to follow...

Then follow become fallen...

While those that lead

You know they never lead the charge, and so we keep
their secrets, hang them from our resin, borrow from
our anger and we pay their debts for war...

I heard a small man say

That God is on our side
