For now they're gone
But they'll be back
To hunt for your life
An aggressive attack
Almost down on you
Unknown death
Waiting for your
Destruction and death

They've been waiting for years
Years bound with hate
They've been waiting to see again
They kill with power and ?fun?

Watch marching ** ** * ** ** **
Now leaves you there crying for help
Almost endangered you are selected
All you feel is the wings of death

They've been waiting for years
Years bound with hate
They've been waiting to see again
They kill with power and ?fun?

Reborn through hate!
We'll slash your necks until you die
Reborn through hate!
Commands that the death shall rot your life
(x2)

SOLO

Reborn through hate!
We'll slash your necks until you die
Reborn through hate!
Commands that the death shall rot your life
(x2)

So drag them down
Down in their graves
Cover you with wet mulched dirt
Now you lay there dead and done

Forever done with time to sleep

For now they're gone
But they'll be back
To hunt for your life
An aggressive attack
Almost down on you
Unknown death
Waiting for your
Destruction and death

They've been waiting for years
Years aligned with hate
They've been waiting to see again
They kill with power and ?fun?

Watch marching ** ** * ** ** **
Now leaves you there crying for help
Almost endangered you are selected
All you will feel is the wings of death

They've been waiting for years
Years bound with hate
They've been waiting to see again
They kill with power and ?fun?

Reborn through hate!
We'll slash your necks until you die
Reborn through hate!
Commands that the death shall rot your life
(x2)
