10 days of constant worrying  
10 days of hard labor in a row  
All wrapped up and set to go  
I get J on the telephone, I say  
C'mon, it's on, and we better be going  
9 o'clock we'll be at R  
9 o'clock down at the R

Got no reason to hang around here  
I know what you talking about  
For tonight til tomorrow comes, dear  
I know what you talking about

We ot some money and we got some girls  
We got a thing or two going in this world, oh yes we are  
9 o'clock down at the R

When the night's too long  
And it's dark and cold  
When you need someone and you just wanna go home  
Don't worry li'l girl, there's always going to be some for  
us  
Yeah, you know down at the R  
Girl, we be down at the R

When the night's too long, and it's dark and cold  
When you need someone and you just don't wanna be  
alone  
Don't worry baby, there' always gonna be some for us  
Yeah, you know, down at the R  
Girl, we be down at the R
