I can walk. I can see. I can close to you.  
I can think. I can hear. I can smile.

Try again. I'll be waiting for you.  
We can walk together.  
Try again. I'll be waiting for you.  
Put your hands on your heart.  
Do you feel my heart beat.

Destiny the wind bloweth where it listeth.  
I made up my own mind.  
Never let light of hope fade in your heart.

Destiny the wind bloweth where it listeth.  
I made up my own mind.  
Peace on mind. I don't want nothing anymore. I am I.

Why can not we be friends? I don't know why.  
Too sad for words. Stop my rain.

Where there is life There is hope. Please don't give up.  
Let tomorrow take care of itself.

I don't want nothing any more. I am I.  
I don't want nothing any more. I can love you.  
I'll be waiting forever and a day. For you.

We are walking. We can walk together.  
We are smiling. We have smiling our face.

La la la. La la la .....
