We still don't know where we are going.
Look like lost children.
You can go anywhere. Please take your swing.

I can't believe. It's trick of fate.
I'm now singing a song.
I sing a song for you with all my soul.

I want make change world melody.
Keep on singing. It's my goal in life.
I want make change world melody.
Don't need anymore. String of fuckin' lie.

What is good? What is bad? Can you understand?
Not money. Not status.
Stand up to fuckin' yourself.

It's time for action. Let's earthshaking.
Can you listen to an earth ache?
We gave many wrong.

Destructive to nature and the starving children.
We gave many wrong.
When did we go wrong?
