Oh yeah, oh yeah
Knew something was...
When I came home today
Better... the stairs, look... down... away
Do you worry... you mentioned it before
You didn't really register till you weren't here no more

If I could reach you on the phone I'd tell ya
That I'm sorry for all the wrong
And I wish that I could do it all again
I wish that I could touch ya
I wish that we were friends
Long before we hooked up
And I wish that it was magic, and lasting
And I didn't take you for granted
Could be so nice and so right
Baby if I
Could do it all again
Do it all again,

Pieces of your heart, moments of your life
One thing that you just can't get a... on this time
And I wanna go back, back to when I first met ya
Back, back to when I would never
Ever not have you back
All I'm saying is that

If I could reach you on the phone I'd tell ya
That I'm sorry for all the wrong
And I wish that I could do it all again
I wish that I could touch ya
I wish that we were friends
Long before we hooked up
And I wish that it was magic, and lasting
And I didn't take you for granted
Could be so nice and so right
Baby if I
Could do it all again
Do it all again,

I... for the reason why

And I'm not ashamed to see
That I'm also out of right
I just want you where I think that you belong
Right here by my side
I wish that I could do it all again
I wish that I could touch ya
I wish that we were friends
Long before we hooked up
And I wish that it was magic, and lasting
And I didn't take you for granted
Could be so nice and so right
Baby if I
Could do it all again
I wish that I could touch ya
I wish that we were friends
Long before we hooked up
And I wish that it was magic, and lasting
And I didn't take you for granted
Could be so nice and so right
Baby if I
Could do it all again
If I could do it all again
