Just one of dem days dont take it personal i just wanna
be

all alone when you think i treat you wrong

I wanna take sometime out to think things through

I know it always feels like im doing you wrong but im

so in love with you so understand that im only in love

youre the only one i need so have no though that i want

to leave and baby trust me please

Chorus 1:

just one of dem days, that a girl goes through when im
angry

inside dont wanna take it out on you. just one of dem
days dont

take it personal i just wanna be all alone, when you
think i

treat you wrong, dont take it personal baby baby baby
baby

dont take it personal

I sit and think about every thing we do and i find myself
in

mysery and that aint cool. k now i really wanna be with
you the

whole way through. but the way you make me feel
inside

keeps me confused. As i swing back mood to mood its

not

because of you. i never want you to be insecure so wont
you

understand that im only in love you're the only one i
need

Ill be there for you when you need me boy so baby dont
you

leave

chorus 2:

Just one of dem days that a girl goes through when im
angry

inside dont wanna take it out on you just one of dem
days dont

take it personal i just wanna be all alone when you think
i

treat you wrong

chrous 1:

chorus 2
