**(feat. DirtBag, Missy)**

Yeah, Imma set it off  
Câ'mon now  
*[Missy]*  
Yeah  
Ohh  
This that hot shit yaâ'll set it off  
New Monica shit  
Câ'mon

*[Monica]*  
You remember when I was just a young one  
And I was to afraid to quickly let you show me thangs

*[Missy]*  
Hol up, Hol Up  
Big show DJâ's  
This joint so crazy put the needle back on the record  
letâ's do a double take

*[DirtBag]*  
Now listen baby im a dirt bag  
I donâ't know the different faces, I cant take it  
But I got a jeep, so you lead and Iâ'll follow  
Lunch up in a diner, if ya act right we dine in the  
Bahamas  
Now wow lil momma, im a gangsta  
Anywhere ya wanna go imma take ya  
Oh my god you caught my eyes like from 20 yards  
You so damn fine  
Listen I donâ't eat peaches but the way you look to  
night  
I just might take a bite  
Come closer, feel that  
Itâ's a woman and a man and a latex  
Out the shower, hotel flowers on the bed,  
Choice of wine white or red  
What more can I say  
Monica, DirtBag, ATL MIA

*[Monia]*

You remember when I was just a young one  
And I was to afraid to quickly let you show me thangs  
Not sure if I was ready for some good love, and im  
bout to set it off  
Can you please be gental cuz I am the fragile kind

And even tho im ready for the move of my time  
Now buckle up yo seat while I set it off

Baby let me set it off, do you mind it I get it off  
Set it off, set it off  
All it takes is one phone call, if you wanna get it on  
Set it off, set it off

I know your anxious but please lets make a  
compromise  
Im so energized All in my neck my back my thighs  
Make sure the lock is safe before I set it off

Baby let me set it off, do you mind it I get it off  
Set it off, set it off  
All it takes is one phone call, if you wanna get it on  
Set it off, set it off

Now imma get it , you can tell them Mo Said it  
And you betta not forget it, now don't sweat it  
And we can really go at it, if you let it let's protect it  
Now I bet it be good is you ready  
But the jump of heavy, my style varies  
The club down I shut it, how I do it  
I set it in me

Baby let me set it off, do you mind it I get it off  
Set it off, set it off  
All it takes is one phone call, if you wanna get it on  
Set it off, set it off

*[Missy]*

Breakdown  
Here we go

*[Monica]*

I will set it off  
I will set it off  
I'll set it off  
I will set it off  
I'll set it  
I'll set it
