Ooh aah ah ah
Aah aah

If he keeps changing for no shoes, I need to
Come right back and be alone again
Maybe I didn't need the use, out of him
Didn't come with no type of warranty

(There's no one)
That I adore
More than your love, it hurts me more
(To let you down)
And again
(There's no one)
Who could ever
Show me the, way to never
(Try someone)
Better than you

Should I take him back
After what he did?
Hurt me in ways that I
Can't forget to replace
How I feel so I'll just go away
Ooh

Should I take him back
After what he did?
Hurt me in ways that I
Can't forget to replace
How I feel so I'll just go away
(Yeah)

Don't wanna go through the same games, again
He's no good and that's just it for me
Does it everytime he returns, there's no use
I'll just be the one left in the end

(There's no one)
That I adore
More than your love, it hurts me more
(To let you down)

And again
(There's no one)
Who could ever
Show me the way to never
(Try someone)
Better than you

(Should I take him back)
After what he did?
Hurt me in ways
That I can't forget to replace
How I feel
So I'll just go away

(Should I take him back)
(After what he did?)
He hurt me in ways that I
Can't forget to replace
(How I feel)
So I'll just go away

Should I take him back
After what he did?
Hurt me in ways that I
Can't forget to replace
How I feel so I'll just go away
(I'll just go, I'll just go away)

Should I take him back
After what he did?
Hurt me in ways that I
Can't forget to replace
How I feel so I'll just go away
Oh, ah

Don't wanna go through the same thing
Better if we'll be back
Don't wanna go through the same games baby

Should I take him back
After what he did?
(What he did)
Hurt me in ways that I
Can't forget to replace
(Baby can't)
How I feel so I'll just go away
(So I'll, so I'll go away)

Should I take him back
After what he did?
Hurt me in ways that I

Can't forget to replace
How I feel so I'll just go away
(How I feel)
I'll go away

(Should I take him back?)
There's no one I adore
And you know it hurts me more
To let you back into my life
You ain't never treat me right

There's no one I adore
And you know it hurts me more
Let you back into my life
You ain't never treat me right

Should I take him back
After what he did?
Hurt me in ways that I
Can't forget to replace
How I feel so I'll just go away, away

Take him back
After what he did?
Hurt me in ways that I
Can't forget to replace
