He's my man and I know it  
Cause I get a tremblin' deep in my soul  
That I can't ignore and I can't control it  
What a man, whoa  
He's my fortress  
I'm safe from harm when everything is all wrong  
May not play ball and ain't trippin on my record deal  
Still he is to me an amazing thrill  
He's my man and I'm proud about it  
I'm gon' shout about it  
Ain't no doubt about it

That's my man  
Ain't gon' let no one say nothing bad 'bout my baby  
That's my man  
Spent too many nights on my knees praying to Jesus  
I'm his lady  
That's my man  
Ladies you know a good man is hard to find  
And now I got mine  
You better believe it  
That's my man  
He's the only one for me

Slow your role  
See how you gon' tell me 'bout my man when you ain't  
got a man of your own  
See I already know  
You can't stand my man really loves me  
Don't cheat, or beat, or sleep around on me and cares  
about my needs  
We fuss and fight but he knows when it's over  
That every night I'm positive my man is coming home  
to me  
He's my man and I'm proud about it  
I'm gon' shout about it  
Ain't no doubt about it

That's my man  
Ain't gon' let no one say nothing bad 'bout my baby  
That's my man  
Well in a fight keep it right and keep it tight

I'm his lady  
That's my man  
You say he's cheating  
I didn't see it, I don't believe it  
He's my baby  
That's my man  
He's the only one for me

If you're willing to do whatever  
Look in his eyes and tell him I love you boy  
Yeah, yeah and if he's not there at the moment  
Call him and let him know I love you boy  
Yeah, yeah, yeah, yeah  
God smiled on me when he brought you in my life  
Never wanna do you wrong  
Always gonna do you right  
You mean more to me than anything else in the world  
You'll always be my man  
I'll always be your girl

And I need you for the rest of my life  
Ooo I love my man  
Makes me feel so good inside  
Ooo I feel so sorry for the ladies that don't have love in  
their life  
Cause mine loves me right  
Ooo I said that God smiled on me  
He gave me something that I've never seen  
Oh and I love him  
Said that I love him  
Oh I love him, I love him, I love him
