So let them say its wrong
For me to love you
They could never feel
The way that I do
When we kiss
When we're close like this
They can't see inside my soul
They can't know the love we know
All they do is waste their time
They can never change my mind

Its what my heart says
That is what I listen to
Its what my heart feels
That tells me (tells me)what to do
Its what my heart knows
That's the only only truth I know is real
All I hear is what my heart says to me
What my heart says

Let them say that im a fool
To fall so deeply
Cause they will never ever be
Lost so completely
How can they
Even talk that way
They cant see you through my eyes
They cant feel this love inside
All their words don't mean a thing
They cant change the way I feel

Its what my heart says
That is what I listen to
Its what my heart feels
That tells me (tells me)what to do
Its what my heart knows
That's the only only truth I know is real
All I hear is what my heart says to me
What my heart says

And I have no felt so sure

About anything
See you are the one
The one that I need
It doesn't matter what they think or what they say
Im loving you, anyway----
Its what my heart says
That is what I listen to
Its what my heart feels
That tells me (tells me)what to do
Its what my heart knows
That's the only only truth I know is real
All I hear is what my heart says to me
What my heart says
