Only you
Can make me run only to you
And be there whenever I fall
I fall and I fall again over you
Over you
Anything everything that you do
Makes me say
[Chorus]
I need you now
Always take the time to love me right hold me tight
keep me coming home every night
For you
Ain't nobody gonna change my mind
Don't think twice I been looking for you all my life
Baby
How did I survive all this time
Without you
Without you
You
You
You
Without you
And I don't ever wanna let you go
(I'll do anything anything anything)
Because you are the only, only one I love
Without you
You
You
You
Without you
You
Hand Me
Hand Me
Can we start a family
We made it official baby ooh
With me and you
Every night I close my eyes
I thank the Lord that you're laying next to me
I didn't think it was possible but loving you brings out
the best in me
Baby
[Chorus]

I'll always take the time to love you
right hold you tight
keep you coming home every night
For you
Ain't nobody gonna change my mind
Don't think twice I been waiting all my life for you
Baby
Got me wondering how did I survive all this time
without you
Without you
You
You
Without you
(can do anything anything anything)
