If the sky opened up for me
And the mountains disappeared
If the seas run dry, turn to dust
And the sun refused to rise

I would still find my way
By the light I see in your eyes
The world I know fades away but you stay
In the love that we have shared before time

If the years take away
Every memory that I have
I would still know the way
That would lead me back to your side

The North Star may die
But the light that I see in your eyes
Will burn there always
By the love we have shared before time

One shining light will still remain
And the love we have shared before time
