"Harmony"

She could have walked away
Left my heart in pieces
She could have given me
The coldest shoulder
Instead she chose to stay.
And now our love is deeper
I keep on learning things
As I get older

Chorus
And I will love her for all time
She's the perfect harmony
She lifts me up so high
Now I can do anything

When she talks to me
It's like an April morning
Feels like an avalanche
Of my emotions
She captured all of me
Without a single warning
I'm gonna' cover her
With my devotion

Chorus
