I'll take my chance tonight
Give it one more shot
I won't give up the fight
Maybe all I got
Would you dare to understand
I'll take you by the hand
I wanna be with you forever
I wanna be with you forever
Would you be with me tonight
Give me one more shot
Two of us and candlelight
Maybe all we got
I better understand
And take you by the hand
I wanna be with you forever
I wanna be with you forever
I wanna be with you forever
You know that I'm missing you now more than ever
We could travel 'round the world tonight
I could catch a star or we can carpet ride it
There's no need to know a destination
'Cause we're in a position to talk and just listen
I don't want this night to end,
Wishing I could get my nose close to yours
And whisper little secrets
That I have never told no girl before
Before? This ain't no repertoire (Toi! Toi! Toi!)
I'll give you everything that I got
Because I feel at ease,
And these feelings won't ever stop
And when I look into those Angel eyes
My body crystalizes,
That symbolizes my heart for you
And what you do
I'm feeling like my life is starting again
There's no chance that you'd be walking away
Cause I love you babe, yeah I love you babe!
I wanna be with you forever
You know that I'm missing you now more than ever
I don't know why
It's takin' so much time

But I don't really mind
Take you time to finalize
I'll take my chance tonight
Give it one more shot
I won't give up the fight
Maybe all I got
Would you dare to understand
I'll take you by the hand
I wanna be with you forever
I wanna be with you forever
I wanna be with you forever
You know that I'm missing you now more than ever
