"Crash And Burn"

Up town, top down
Waiting for the sundown tearing up the pavement in
her old man's ride
Boys stare girls glare everyone knows her there
She can do whatever and it's all right

Get to know you then she'll steal your boyfriend
Just to dump him the next day
Push her friends past forgiveness away

Someday everybody learns if you play with fire your
gonna get burned
One day the table's gonna turn she'll fall in love then
fall apart and crash and burn (crash and burn) (and
burn.)

She walks perfect, all perfume and lipstick
But nobody notices she's all alone
Sees her former best friend on the corner cannot meet
her eyes because she hurt her so

Get to know you then she'll steal your boyfriend
Just to dump him the next day
Push her friends past forgiveness away

Someday everybody learns if you play with fire your
gonna get burned
One day the tables gonna turn she'll fall in love it'll fall
apart and crash and burn (crash and burn) (and burn)

What do you see you people staring at me (you people)
Staring around and around and around
Staring around and around and around
Standing around and around and she is falling
Standing around and around and she is gonna

Get to know you then she'll steal your boyfriend
Just to dump him the next day
Push her friends past forgiveness away
Some day everybody learns if you play fire your gonna
get burned
One day the table's gonna turn you'll in love you'll fall

apart and crash and burn,

Someday everybody learns if you play with fire your
gonna get burned

One day the tables gonna turn fall in love then fall
apart and crash and burn.

Someday everybody learns (everybody learns.) your
gonna get burned one day (the tables gonna turn oh oh
)

Your gonna crash and burn!
