Walked into your room  
I could barely move  
Let's move, let's move, let's move, let's move, let's  
move  
Sat on your couch  
Just like the night before, before, before  
Then you lean down, down your shirt  
Your skin goes pale where mine starts to hurt  
Let's get carried away with our hearts and thoughts  
Our hearts and thoughts don't turn off  
Turn off, turn off, turn off, turn off  
Then out it played and you slipped away

Why's this all going wrong, I don't know  
Everything we had is all gone, where did it go  
Whatcha got going on, did you forget baby  
To tell me

Come what may  
Come what may  
I'll stay

And then from your eyes, roving looks turn to the side  
Did you believe that roaming hearts settle in time  
I know I've never said the right thing, the right line  
But now I know I have fallen behind  
So I carry away my heart, this pain  
I never want to feel this way again  
Take me back before you were mine  
When you said hello and I said I'm fine

Why's this all going wrong, I don't know.  
Everything we had is all gone, where did it go  
Whatcha got going on, did you forget baby  
To tell me

Come what may  
Come what may  
I'll stay

Why's this all going wrong, I don't know  
Everything we had is all gone, where did it go

Whatcha got going on, who you got baby  
Who's better than me

Come what may  
Come what may  
I'd stay  
I would've stayed
