

Corrosion Of Conformity "13 Angels"

Visit "[13 Angels](#)" on MotoLyrics.com

Sleep, sleep, sleep, oh, sleep for me
And rest your soul, just like the roses at your feet
Dream, dream, dream, dream awhile for me
And travel far away 'till the distance is complete

There's 13 angels standing on display
I think they're gonna take you away
One life time gone and now your soul is dead
The angels just shake their heads

Oh, faith, faith, faith, have faith for me
I've lost it long ago somewhere I shouldn't be
Heart, heart, heart, save your heart for me
It's the only place I've been with everything I need

There's 13 angels standing on display
I think they're gonna throw me away
One life time gone and now my soul is dead
The angels just shake their heads

Oh, maybe I'm a life time soldier
Never dying, never gettin' older
Maybe I'm a life time soldier
Lost along the way

High, high, high, stay high for me
And let me see the things I never thought I'd be
Wait, wait, wait, please wait for me
I've traveled far and wide without a destiny

There's 13 angels standing on display
I think they're gonna take you away
One life time gone and now my soul is dead
The angels just shake their heads

Oh, maybe I'm a life time soldier
Never dying, never gettin' older
Maybe I'm a life time soldier
Lost along the way
