

Corrosion Of Conformity "Broken Will"

Your mind is controlled
You're a puppet on a string
Their flag you'll wave
Their anthem you'll sing
Where it once was strong
Your will is broken
You've got no choice
But to go along
We'd like to hear your views

So come along quietly
If they're not ours
We'll just turn some screws
So don't you try
There's no use resisting
You'll be a good citizen
We've got big plans
For someone like you
Or you'll die
So come along we'll brainwash you

No voice. No choice. Obey or die
No voice. No choice.
Obey or die.
