All of the reasons  
That led me here  
Have all faded  
All  
Disappeared

No right direction  
Guidelines away  
Struggling with my own  
Demons  
Obsessions to obey

I... m on my way  
To save the day  
I... m on my way  
To void

I raised my voice against your will  
Too silent and humble  
I  
Paralyzed before the thrill  
Left crying in solitude

Recollect the  
Pieces  
That... s left of me  
Brush all the dust off the shoulders  
Wash away the  
Misery

Breaking out from solitude  
It... s everlasting  
Leaving all the blocks  
Behind  
Mindhurt and sorrow  
Breaking out from solitude  
Unbreaking all the  
Damage done
