It is all just pointless speculation
Words
Without a meaning overflowing
Pollution in the air taking my breath away
Spit
It out, blow it out, exhale

Speaking to myself
Echos to deaf ears

Won... t
You make my wish come true
And turn back time for me
Living life in shallow
Waters
Ain... t life, it ain... t life
Ain... t life worth living for

Noise
Polluted my dream so clean but shallow
My screaming ears won... t let me fall
Asleep
Give a shelter, show you care, cry a tear of my despair
Take it off,
Rip it off, cut the leash

Live a life... till you die to yourself

Speaking
To myself
Echos to deaf ears

Won... t you make my wish come true
And turn
Back time for me
Living life in shallow waters
Ain... t life, it ain... t life

Ain... t life worth living for
