Did a shot of rhythm and blues and a chaser of punk
My heart is beating loud and my blood is just about to
boil

Tonight's the night I get everything off my chest
Tonight's the night I do what needs to be done

You better move on
You better get gone
Don't look at me wrong
Don't mess with me
You better move on
Better get gone
Don't look at me too long
Heed this fair warning
Don't mess with me

Stuck up two faced phonies need to listen up
And tell your phony friends to get off this is the end of
the line
Got Bon Scott barking out, "it's dog eat dog and eat cat
too"
This fighting mad Akita's biting back at all the accused

Chorus

Did a shot of rhythm and blues and a chaser of punk
My heart is beating loud and my blood is just about to
boil
Tonight's the night I take everything that I want
Tonight's the night I say what needs to be said

Chorus
