Tonight will be the night
You say goodbye forever then
My soul can't match your soul
It pains my heart to hear you say
Between the darkness of life and death
Faded flowers of night
Disorder buzzes now
Like vultures all around my head
Goodbye
Now I leave you with my pain
Sometimes
I curse your name in vain so

Pick up your things
Pick up your things
She said cause you're not clever
Pick up your things
Pick up your things
And I think you should know
That I can't stand
Your fascist emotions
Pick up your things
Pick up your things
And now please leave me alone

Now no one's knocking on your door
It's been a day or so
You're feeling desperate now
So call him up and cry out loud
You throw your lonely net on my pride
To keep a piece of me inside
But it's the part of me
That you've already thrown away
Goodbye
Now I leave you with my pain
Sometimes
I curse your name in vain so

Pick up your things
Pick up your things
She said cause you're not clever
Pick up your things

Pick up your things
And I think you should know
That I can pretend
To have some emotions
Pick up your things
Pick up your things
And now please leave me alone

Nice long took
Mi bay
I don't know anymore

Pick up your things
Pick up your things
She said cause you're not clever
Pick up your things
Pick up your things
And I think you should know
That I can pretend
To have some emotions
Pick up your things
Pick up your things
And now cleverly leave me alone

Alone!
Alone!
Alone!
Alone!
