## Verse 1

Baby

I've been thinking about our love

And thought

Maybe...

We could spend a little time, because

Lately

The moments that we share have been so

Shaky

You're still here, but you're not here

## Chorus

Girl, you're been away too long

Won't you come home

Come home

I been missing you

Since you been gone

Won't you come home

Come home

## Verse 2

You said...

That you need a change of pace, and so

I said...

We both could use a little space

Never thinking...

A little while would be forever without your love

Without your love

Bridge

I can't imagine life

I can't imagine loev

If you're not here with me

'Cause I can't get enough

So when you change your mind

My arms are open wide

Do what you gotta do

Just know I'm missing you

Repeat Chorus 2X

Repeat Bridge

Breakdown

Chorus, Vamp, End
