Verse 1

I'm checking honey

And she's

Licking her lips

Dancing with her friend, not looking at me

And if I'm not mistaken

This is, an invitation

To participate with me, she and she

Oh yeah

Pre-Chorus

And now they're waitng for me

...But they'll wait a little longer

I played is 'oh so' pimplly

..'Cuz I might see something better

So I'll just slide in between them

I gotta let these shorties know

I'm a holla at them later

But right now, I gots to flow

I gots to flow

Chorus

Everybody get down

DJ start to get busy

Everybody get loud

Ladies start to get freaky

Niggas start to act wild

Let me know if you're with me

Everybody get down

Verse 2

Just like I thought

The night

Keeps getting better

When I see this honey

Too hot to miss

She was,

Sitting in a chair

With her legs lightly spread

Showing just how off the chain

She is

Pre-Chorus

And what she's showing to me

You could call it "Basic Instinct"

I played it 'oh so' pimplly

I told her when and where to meet me

See playboy ain't that anxious

So I'm letting honey know

I'ma twist her back up later

But right now I gots to flow

Repeat Chorus

Bridge

A party ain't a party

Unless you got a shorty

Moving and shaking that a** on you

It's so good, it's so right

Girl, I'm feeling you tonight

And the time is now

So everybody can get down

Breakdown

Can I get down

Yes you can

Can I turn it around

Yes you can

Can I work that thang (can I spank that thang)

Go ahead baby (go ahead daddy)

Get down, get down

Repeat 2X

Vamp Chorus, adlib til end
