Last year I saw her in the bakershop nextdoor
She looked into my eyes next moment I went to the
floor
She took me home with her and there she grapped into
my pants
She is nearly 44 and she took my innocence!

I love her like she is and she is not so young
Her hair is gettin' grey - she must be older than my
mom
People say I'm pervert and she belong in jail
But I don't really mind - I love her anyway

Since that day I see her ev'ry week and have so much
fun
By playing games with her I never thought existed
under the sun
She's my riding-teacher - I feel like I'm in paradise
First she licks my balls and than I felch her TWICE!
