Everywhere you go - I will follow you
And if you start to run - I'll start running, too
(Your heart is my heart and my arm is your arm)
Side by side we'll walk through our life

Stuck, stuck, stuck together - we are stuck together
[2x]
We are siamesed, we are siamesed, we are siamesed -
oh we are stuck together! [2x]

When we are playing tennis - we always playing double
And if you break your neck/leg - I'm gonna be in trouble
I completely know your past and I'm sure that you know
mine
You are staring in my future - till the end of time!
