Holdin' on  
You're better holdin' on to what you've got  
You're better holdin' on  
That's what I'm asking you for

Going on  
You're better going on and save my life  
You're better going on  
And save my life  
At least for a little while  
Just save my life  
At least for a little time  
Just save my life  
That's all I'm asking you for

At least for a little while  
Hold me at least for a little while  
At least for a little while  
Gimme some of your love

Drop down the tear  
Wipe out your eye  
And leave it all far behind  
Hold on to me  
Just stay for a while  
I will be there if you don't mind
