sittin at the table, trying to read the paper  
the silence echoes through my head  
I made our favorite coffee, but it doesnt taste the  
same, another Black moon day

theres no need to turn and look, I know that your right  
there  
you always seem to find me everywhere

Black moon, I cant escape from you, how you follow me  
right into my room  
how'd you find me here, I just cant get away, another  
black moon day

harmonizing

black moon, I cant escape from you, how you follow  
me, right into my room  
howd you find me here, I just cant get away, another  
black moon day
