The autumn leaves were falling  
And the snow was soon to come  
As I was walking down a lonely road  
I saw a little fellow who was sitting all alone  
Catching leaves as they began to fall

Chorus:

The leaves mustn't fall, oh no they mustn't fall  
I'm tying the leaves so they will stay  
I've lost my mom and dad  
Now sister's all I have

Don't let the falling leaves take her away  
My sister's only seven, and she's sure a pretty thing  
As pretty as a picture on the wall

The doctor came this summer and he said that she  
would die  
When the autumn leaves had turned and start to fall

Chorus:

So won't you help me mister  
Won't you help me tie the leaves  
We'll tie them to the branches good and strong

So come now we must hurry  
So we can keep my sister here  
And show the doctor man that he was wrong

Chorus

Don't let the falling leaves take her away
