I will fly  
I will soar the sky  
I will blow through the leaves in the night

I will rise  
I will touch the ground  
I will feed this world  
And be reborn

I will destroy  
I will punish you  
Erase the madness if you cause me harm

I am  
Am the explanation  
That for which you're searching  
That which you can't measure  
You haven't understood

Your ignorant presumption  
Cause you to overlook just a few little  
Insignificant details

It's time to release what's inside

I am  
Am the explanation  
That for which you're searching  
That which you can't measure  
You haven't understood

Don't be persuaded  
And move yourself to see  
Take notice of these  
Insignificant details
