feat. Leusin

I close my eyes
Hiding from more than words
There's no more tries

They'll teach us all, fragile birth

Only thoughts are in my head
And they don't give him more than speech
I am under your spell all the time

It's your desire
Happiness does not return

Only thoughts are in my head
And they don't give him more than speech
I am under your spell all the time

I close my eyes
Hiding from more than words
