"I Love Mornings"

Visit "[I Love Mornings](#)" on MotoLyrics.com

The new day has started
You opened your eyes
You felt that this morning will bring something nice

You open the window
The fresh air goes
The birds fly the meadow
The grass under, bows

You say "I love mornings"
You smile and drink tea
You hear the ring
"Good news!" – glad to hear!.

If every morning started like that
Then happiness lived in each people's flat

The smell... mmah... so fresh
The view... oh... so charming
The mood... ssss... so pash
The heart is so shining
