Roaming the docks, this moment I've dreamt of all my  
life

Oceans roaring my name, this is my fate

Weigh anchor, set sail

The ship soon embarks, the harbour fades

Soon we're under attack, pirates by our side

They are merciless, I must flee from this chaos to live  
I shall seek revenge, they all must die

In the night, the thunderous sounds

Of my dreams blowing up in the air.

The last image I see

Is the ship with the blood red sails

Floating ashore, I wake as the sunlight burns my neck

Marooned, deserted am I. This island is my cage

Days turn to weeks

The fires I light are pointless

No one comes to my aid, seasons come and go

But one autumn day, as I sit in the sunset alone

There, a ship appears in the distant sea

In the night, the thunderous sounds

Of my dreams blowing up in the air.

The last image I see

Is the ship with the blood red sails

In the night, the thunderous sounds

Of my dreams blowing up in the air.

The last image I see

Is the ship with the blood red sails

In the night, the thunderous sounds

Of my dreams blowing up in the air.

Five years, imprisoned I've been

At last they will take me away

In the night, the thunderous sounds

Of my dreams blowing up in the air.

In fear, I suddenly see

It's the ship with the blood red sails

In the night, the thunderous sounds  
Of my dreams blowing up in the air.  
The last image I see  
Is the ship with the blood red sails
