They Let the stories leak out of corrupt authority  
One more tale of a dead minority  
Overly accused and did what they said  
Was brutally attacked and left for dead  
It's just a scare tactic with no restriction  
Just a scare tactic without a conviction  
It happens everyday for no reason at all  
But it doesn't really matter it's the victims fault

Use the fear to keep the peace  
On the news and in the streets  
Like the shepherd to the sheep  
If you fuck up your spitting teeth
