Well, I like to say fuck and I like to say shit.  
I like to say cunt and I like to say bitch.  
I like to see violence and sex on t.v.  
But the FCC says it's not for me

They'll show us war and show us crime  
But if I wanna see boobs that's crossing the line  
Where do they get the right to tell me what to do  
If your offended then turn it off or FUCK YOU

The FCC is watching over me  
On the radio, the magazines, and the TV  
Where do they get the right to sensor what I see  
I thought we were living in the land of the free!
