music by Morbid Death  
lyric by Ricardo Santos

Come close to me  
Look into my eyes  
And what can you see?

Take my hand  
And come with me  
I'll show you things  
That you never seen

Outstanding promises  
Wrong talks  
Corrosive philosophies  
Just sustain your breath  
And come with me  
Secrets - I cannot hold them  
Oh! Secrets - I can not hide them  
I only want to say  
And show what's right or wrong  
Oh! Secrets...

I can not accept total ignorance  
Open your mind, you have to know it  
Try to assimilate all knowledge  
And I will always guide your way.
