Coming from every part  
Called by their dictators  
To defend with the heart  
Transforming us in predators

Then comes the time  
That the slaughter begins  
Covered with dirt and blood  
No time to confess our sins

Unequal rights  
They start up the fight  
Obeying our leader  
The anger grows bigger  
In what kind of society do we live in?  
In a society of greed..  
..cruel hate..  
..no faith

Unequal rights  
Their must be a logical explanation  
Of all this killing  
This is our situation  
Of all this killing
