In my noble morality I keep affirmating my sense of  
being  
I want you  
To love is to possess  
PASSION IS THE SCENT THAT LED US INTO AN ENDLESS  
EXCESS

For my sake  
Behold  
Forsaked  
By you

Love is my most frequent act of stupidity  
Dopamine  
You came in

You came in  
You can have my mask  
Your regrets in control of all my fears

One must love  
It was suffering  
Now lies has just begun

Love is my most frequent act of stupidity  
I cry  
I need

IN FORGOTTEN METAPHORES I PERISH

I want you  
To love is to possess  
Passion is the scent that will lead us into an endless  
exess
